

CAR SEAT CHRONICLES

CAR SEAT SAFETY. SUMMER EDITION 2023

Pool inflatables aren't the only inflatables to pay attention to this summer. Some vehicles have inflatable seatbelts. Certain car seats CANNOT be installed with an inflatable seatbelt. Make sure to read the car seat manual to see what is allowed.

LONG CAR TRIP?

While driving may be less stressful with your child sleeping in the back seat, make sure they are still properly wearing their seat belt.

In the event of a crash, a child in the position above would not be safely restrained or protected and could experience serious or fatal injuries.

Have Questions?

We have trained car seat technicians who can help install your seat securely and answer any car seat questions you have.

DON'T SWEAT PICKING BETWEEN LATCH OR SEATBELT

While the decision may seem like a big one, both methods are equally safe. When deciding, consider your comfort using each method, where you'd like the seat installed, and, when forward facing, your child's weight.

Just make sure you only use one method, not both.
